

Gary Pitt and Company Ltd

Electrical Contractors

HEALTH & SAFETY POLICY STATEMENT

Gary Pitt & Company Limited prove that an excellent company is by definition a safe company and since we are totally committed to excellence and the belief that our most valuable asset is our people and our customers, it follows that minimising risk to people, plant and the natural environment is inseparable from all other company objectives and business goals.

Prevention is not only better than the cure but more cost effective and as such we also view safety as not only being good business but core business.

Effective management and delivery of any Project regardless of its size or complexity means the avoidance of loss or harm not only during the life of the project, but also in the subsequent use, maintenance, renewal or decommissioning of the assets associated with any project.

During the life of any Project or undertaking we aim to:-

- Avoid the risk of injury to personnel, customers, suppliers and members of the public.
- Avoid damage to property and the natural environment.
- As a minimum ensure compliance with legislation and where financially viable develop and use best available techniques and practices, for the life of the project.

We will achieve this by:-

- Understanding examining, evaluating and controlling risks at all stages of any project paying particular attention to the design and construction phases.
- Effective management of our people, contractors and other suppliers.
- Maintaining, monitoring, auditing and progressively improving our systems at work, behaviour and performance.
- Providing the framework for setting and reviewing objectives and targets.

Gary Pitt and Company Limited's management is committed to complying with this Policy and to ensuring compliance by others.

This Policy is reviewed annually by Senior Management to ensure that we are still meeting with all current legislation and clients' expectations.
